P3 FILTERING FACE MASK FOR ANTI-ODOUR PROTECTION

DESCRIPTION

Mask body made in TPE thermoplastic elastomer (Elipse edition). It adapts and adheres perfectly to the user's face, preventing dust from infiltrating the interstices created by poor adherence between the user's face and the mask. The large front non-return valve allows to minimize the user's breathing resistance and moisture build-up inside the mask.
Washable and with a lightweight, flexible and compact design which allows a full range of vision without interfering with other eye or ear protections which users choose to wear.
Special patented "pleated" filters ensure an efficiency comparable to at least seven fabric masks.

CODE	PACK
019SP301	1 pc.
