valid until 29th February 2024

ICA Group in Civitanova Marche is very much at the forefront of the manufacture and marketing of special coatings for wood.

For decades, the group has been working to serve its client base through the manufacture of a range of **high-quality, highly reliable coatings**; the group's operations are strongly focused on the research and development of technical solutions that have what it takes to meet the ever-changing requirements of the market and the essential obligation to safeguard the environment.

Its products are able to meet the needs of all the existing sectors in the wood industry (from furniture to carpentry, from shipyards to outdoor structures, from window frames to garden furniture, from wooden flooring to musical instruments). The range also includes a line for glass, plastic materials, etc.

ICA Group products are distributed in Italy through 60 direct agents with decades of experience. Thanks to this accumulated knowledge, they understand the coatings sector inside out, and have a highly developed sense of what businesses in the sector actually require, thus enabling them to provide those clients with products and services that are always fully aligned with their needs. The group's Italian sales network encompasses branches, depots and specialist resellers. ICA Group distributes its products in 50 overseas markets through a plethora of branches, depots, distributors and specialist resellers.

ICA Group operates in compliance with **ISO 9001** (quality assurance system), **ISO 14001** (environmental management system) and **OHSAS 45001** (occupational health and safety management system) standards.

KWH Mirka Ltd is one of the world's leading manufacturers of flexible abrasives and sanding systems.

Founded in Finland in 1943, the company has built its success on a strategy inspired by innovation and continuous improvement. Through constant research, it has developed revolutionary abrasive technologies and cutting-edge products such as dust-free sanding systems.

Over 95% of Mirka products are exported to more than 80 countries, through a network of 16 branches owned by the company and over 50 importers. **Mirka Italia** is committed to bringing the philosophy, the mission and the products of the parent company to the Italian market, with a team of expert technicians ready to offer all the necessary support in the treatment of surfaces.

Mirka has always been inspired by the highest quality standards.

It was the first company in the abrasive sector to obtain **ISO 9001** (quality assurance system), **OHSAS 18001** (occupational health and safety management system) and **ISO 14001** (environmental management system) certifications. These acknowledgments witness its great attention to total quality, the same that can be found in every abrasive.
